User Research · Human Centered Design · User Testing

Visual Design · Animation · Design Language System

💻 Softwares

Figma · Sketch · Adobe XD

Principle · Marvel · InVision

Notion · Miro

🗂️ Work experience

Nov 2020 - Today
UX/UI Designer
🔴 UniCredit Services - Naples

I'm part of the internal User Experience Team and we are responsible of crafting digital banking products, both for clients and internal platforms by following the ideation, prototipation and testing. Thus, I had the opportunity to take part in project of various nature. Moreover, I had the responsibility to translate our Design System (Bricks) from Sketch to Figma and keep it updated based on the use and feedbacks from the other designers.

March 2020 - Today
Freelancing

Both through online platforms (such as Fiver Pro) and autonomsly, I've had the opportunity to design seversl projects that helped privates and companies to realize their idea for the interface of mobile apps and websites. I followed the process starting from lo-fi prototypes and wireframes to the pixel-perfcet design, but also with some redesigns.

Sept 2019 - Jun 2020
UX/HMI Designer
Ⓜ Maserati (on behald of RE:Lab) - Modena

I worked in the HMI Team, in particular on the Infotainment. I was responsible of defining a good experience for the users of the car radio and its connected services (phone, maps, updates and also mobile app linkage).

2018 - 2021
Creative Writer
La Testata

Wrote articles about sociology, philosphy, cinema & TV, actuality.
